FOR IMMEDIATE RELEASE

## **Bonnell Aluminum Achieves IATF 16949:2016 Certification**

**Newnan, GA —July 25, 2018** - Bonnell Aluminum, a subsidiary of Tredegar Corporation (NYSE:TG), is pleased to announce that its aluminum extrusion manufacturing facility in Newnan GA, has achieved certification under IATF 16949:2016, a technical specification for quality management systems in the automotive sector, as set forth by the International Automotive Task Force (IATF).

Replacing the previous ISO/TS 16949 technical specification, the IATF 16949:2016 combines various standards from across the United States and Europe. It outlines rigorous requirements to the supplier's Quality Management System (QMS), including continuous improvement, defect identification and prevention, reduction of variation and waste. This international measure of quality is the gold standard for any company to develop a system for ensuring improvement and customer satisfaction.

"Achieving this Quality Management System standard is a major accomplishment for our employees and company as a whole", said Robert Gregory, Plant Manager. "Our commitment and dedication to excellence and quality through continuous improvement enables us to meet and exceed automotive quality standard requirements".

Brook Hamilton, President of Bonnell Aluminum, said "This certification marks another major milestone for our company and will further enhance Bonnell Aluminum's position as an industry leader and supplier of aluminum extrusions to the automotive market".
